EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Patrick Benedicto on October 11, 2006.

The application has been amended as follows:

In Claim 5, line 1, insert a "." at the end of the claim.

The following is an examiner's statement of reasons for allowance:

Claims 1-5 and 8 are allowable over the prior art of record because the prior art of record does not teach a method of magnetron sputtering including forming a first closed plasma loop and forming an open plasma loop by forming a separatrix such that a portion of the open plasma loop enclosed by the separatrix is cut-off by a target of a magnetron apparatus, the separatrix comprising a surface having a null region through which ions may pass through.

Claims 33-38 are allowable over the prior art of record because the prior art of record does not teach a method of magnetron sputtering including forming a first closed plasma loop; forming an open plasma loop wherein the open plasma loop is formed by physically blocking a return path of a separatrix comprising a surface having a null field region through which ions may pass through.

Art Unit: 1753

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
